DOMUS ACADEMY MILANO

About Domus Academy

Domus Academy for me is a modern Myth where Naivness awe Complexity (and viceversa) and Rationality embraces Poetics (and viceversa).

Juan Carlos Viso/Juanco

Domus Academy is the place where everything and its opposite is discussed, where ideas grow and invade the surrounding world.

Emanuele Biondi

In my opinion, there have been only three real design schools: Bauhaus, which corresponded to the industrial society, Ulm to the mass society, and Domus Academy, the school of the postindustrial society.

Antonio Petrillo

Domus Academy is a melting pot of culture and cultures, of up-coming and established professionals; it is the place where design is not a discipline but a way of seeing things and tackling life.

Milan, Design & Fashion Capital

Design is part of the fabric of Milan. From the city's fashion tradition to its new role as a startup hub, Milan is home to a thriving commercial design industry and a globally facing creative culture. Life in Milan moves at a relentless pace, in fact it's hard to remain unmoved or detached from all the cultural, social and business activities afoot. It follows that there is no better place to pursue a design education.

Milan is the world capital of fashion and design, brimming with innovative and creative people, emerging designer boutiques and businesses whose longstanding success is built on design.

The centre of Milan is home to the flagship stores of some of the most important fashion and design brands, including Cappellini, Driade, Kartell, Versace, Armani and Valentino. Therefore, students can draw inspiration from the trend-setting work of the world's leading designers and, at their fingertips, will be Italy's finest artisans and manufacturing facilities, that make Made in Italy craftsmanship famous around the world.

Milan bristles with life. Every year during the Fashion Weeks, Design Week and their various ancillary activities such as the Fuorisalone, Milan becomes one big showroom, full of non-stop exhibitions, performances, parties and conferences featuring prestigious international guests. But the reach of design doesn't stop there, it can be seen in the outline traced by the city's new skyline, in the partnerships being developed between research, design and business, and in the deployment of new technologies that tackle the widest possible range of design problems. Milan is a creative environment like no other.

Message from Director of Education

FOCUS ON VISION

Domus Academy was born from a disruptive and visionary philosophy in a period in which Italian Design successfully spread internationally. A group of practitioners and thinkers joined forces to run a laboratory of ideas, experimenting and exploring.

Students, emerging and experienced professionals, critics and intellectuals, gathered together to discuss and investigate the world to come—how they as designers could contribute and project change—to examine systems, challenging the status quo to construct and reflect on possible futures.

This same spirit is integrated into the current pedagogical approach (common to all of the master programmes) that combines inquiry and experiential learning components in an atelier-like environment. Seminars and workshops become the framework in which students, alongside the professors, became the protagonists in design discourse, challenging the project's space and developing and applying a critical mindset.

The goal is to go beyond the immediate, to think on a broader scale in order to return, to inform, or even reformulate the particular issue at hand.

With renewed urgency, our academic endeavours and programmes aim to prepare the students to manage the complexity of change and articulate the thoughts and ideas that will shape and guide our contemporary and future context.
